Building spaces for life

The starting point of the Journey:

1995

And beyond

Alla Ayodhya Rami Reddy
Founder and Visionary Leader

The Ramky journey is nothing short of a Visionary's drive and focus to create infrastructure that made a difference to everyone's lives. Having worked with select reputed organisations, our Founding Chairman, saw both the need - and the potential - in India and conceptualised Ramky as a multi-industry Mega-brand.

His foresight has truly helped the country create the necessary infrastructural backbone long before any one else was even thinking about it, and this gave the Ramky group the status of a pioneer and the first-mover advantage in several initiatives. Years later, the Group still derives value and benefit from his visionary thinking and scale of execution!

Driven by relentless passion and by adding strong people and partners to execute the vision,

Ramky Estates and Farms Limited along with its sister organisations in waste management, infrastructure, life sciences and pharmaceuticals are all now growing their significant global footprint with over INR 5500 crores in turnover.

At Ramky Estates, as one of the leading conglomerates in infrastructure development, we have delivered a wide range of construction marvels in the real estate sector comprising Residential, Commercial, and Integrated Township projects.

We have always chosen balance. Thought and technology. People and projects. Enterprise and the environment.

It is this balance that drives us to bring our best to each project ... as we continue into the future - building with heart. Building it smart.

AN EXCITING JOURNEY UNFOLDS

Worry-free journey

Purchasing a home is always a big step. Ramky ensures that every customer can rest assured of clear titles, easy paperwork and the maximum support of reputed financial institutions to help fund their dreams.

Environment consciousness

Ramky has been pioneering environment-friendly and sustainable initiatives in every project and this focus will continue to remain a Key Value for generations to come. We are constantly looking into advanced construction techniques of Precast/Homogenous concrete construction to ensure the lowest carbon footprint. Several of Ramky projects have been awarded/certified by the industry's leading environment certification bodies.

Social change

Ramky is committed to relevant and consistent initiatives that help make the world a better place for everyone. Whether it is taking care of our own site workers and their families or extending support to worthy causes, we will always prioritise our responsibility towards society at large.

HEART MEETS SMART

Intuitive Spaces

We are well aware that land and resources are limited. That's why we put a great deal of thought and intelligence into better utilisation of spaces. We ensure that our planning and mapping of projects ensures that residents get the most from everything we design. We also ensure good indoor air circulation by strategic placement of buildings and provide outdoor spaces where children can run and play in complete safety.

Tomorrow's Technology

Technology in construction and real estate keeps evolving and Ramky ensures we bring the best of technologies to our spaces. Whether it's in engineering, construction, automation, safety and security, technology makes everything better, easier and significantly more efficient. Our projects are future ready with provisions of Electric charging points for vehicles, jet ventilation systems in basements for all round air control from vehicular emissions, and much more.

Innovation

Ramky is focused on innovation and ideation. We will continue to be the pioneers, with deeper understanding of customers, adoption of state of the art technologies, improved execution efficiency and beyond. Every Ramky project strives to surpass, and create new benchmarks in living spaces. Right from inception, we integrate waste treatment plants, facilities for recycling of treated water, and ground water conservation by provision of adequate recharge wells.
